## The figure 8 in China

Mystery and magic figure, the figure 8 is above all a lucky charm in the life and in the business. In China, many different characters pronounce in the same way in some tones near. The figure 8 pronounces "ba" in mandarin that we can move closer to the sound "fa" in Cantonese which means "growing rich" or "prosperity".

The figure eight is also a symbol of final balance, in Asia, it represents, 8 beams of the law Boudhiqu, 8 rules of the "Chou-King" way, 8 Ministers of the Chinese Empire, 8 petals of the lotus, 8 pillars of the sky, 8 cardinal points, etc.

## Cacheux 8, a glory to the figure 8

This very limited series with only 8 numbered timepieces is a very great tribute to the figure 8, this white golden figure 18 carats is centered on the dial the magnificent buckle of which hands, by their movement, finalize characterizing this figure. These some numbered timepiece crystallize around them an impressive number of figure 8 :

- 8 timepieces only all over the world
- 88 grams of white gold 18 carats
- 8 carats diamond
- Golden figure 8 in 18 carats in the center of the dial
- Symbol "ba" on the dial and on the crown
- 8 months of achievement

## Tourbillon movement Cacheux, a marvel of watch-making

The heart of Cacheux 8 is a real small marvel of high watch-making by the fact that this tourbillon possesses a power reserve more than 120 hours, exceptional duration in itself for a tourbillon which, here, is delivered by one and a single barrel, a unique technical exploit.

## Luxury french brand in the inimitable style

The collection Cacheux 8 is an integral part collections of the French brand CACHEUX haute-Horlogerie, every collection has for intention an originality and its own elegance. It also means that theses 8 timepieces benefit from all the intention in the manufacturing and in the finishing which requires timepieces of Cacheux Haute Horlogerie.

8 months is necessary to realize and be able to wear on the wrist one of theses 8 magnificent watches.

# Collection Elephant Circus

CACHEUX Elephant  
*White gold*

“ The Elephant Circus is a true work of art that gives the time  
- we could have been able to call it a timepiece. ”

## Why : Elephant ?

Massive, impressive, gigantic, are superlative degrees which suit perfectly to this new watch, as to well as an elephant!

Furthermore, the bracelet coming to advance above the case as two horns to protect the timepiece, that's why, quite naturally that its name of baptism was this one!

## And why the name Elephant Circus ?

In this version of the Elephant, the dial receive a retrograde date, a power reserve indication and a visible balance. So, the display looks like a circus ring. With twin barrels, the show could spend more than 5 days !

## Elephant System® (World Premiere):

The double brackets which operate as bracelet clasps give to this collection and specifically to the Circus version a strong personality. It is simple and pleasing to loosen the bracket button with a quater turn, sliding the bracelet through the bracket before refastening, you simply have to pull the bracelet down to lock the button, and the watch is safe on your wrist!

The Elephant System is soft to use and it's comfortable, there is no buckle under your wrist.

Each bracelet is created specifically for its owner, so that the watch is ajusted to their wrist.

# Collection Brut

CACHEUX Brut  
*White gold*

We have created for you, a unique piece in watchmaking. *The CACHEUX Brut.*

This timepiece takes its origin in the universe of diamond. It is called Brut in honor of the diamond gangue.

This elegant and discreet watch is a technological challenge. It is composed of a thick sapphire crystal sculpted in the mass. This glass requires 1 month of drawing millimeter by millimeter to achieve this shape. The 18-carat gold case also machined in the mass. The case is set with baguette-cut diamonds. The crown is set with a round diamond.

For the back of the watch, two choices are available to us:

- A totally sapphire crystal backdrop that takes up the design of the glass on the dial side, leaving the beautiful part of the mechanical watch with a magnificent tourbillon.
- An 18-carats gold background completely crimped like the case, the idea being that the skin of the wrist could be in contact with the diamonds. All the watches have a visible crimp, this one will have a discreet crimp and almost invisible but very real, the must-have without doubt ...

An elegant and discreet watch that is breathtaking by its technicality and originality, only for connoisseurs!
